

Dataset for Software Requirements Prioritization and Selection Research

In the following dataset, the opinions of five decision makers (DMs) have been captured on the importance of 192 FRs based on 3 NFRs. The details of these DMs are given below:

- DM1 and DM2 were from Indraprastha Institute of Information Sciences Delhi, A Unit of Indraprastha Institute of Information Sciences Private Limited, India
- DM3: Software Engineer at Infosys Jaipur, India
- DM4: Postdoc Fellow at Indian Institute of Science Bangalore, India
- DM5: Faculty at Jamia Millia Islamia, A Central University, New Delhi

The meaning of 192 FRs and 3 NFRs is given in the following paper:

- M. Nazim, M. Arif, C. W. Mohammad, and M. Sadiq, "Generating Large Dataset for Software Requirements Prioritization and Selection Under Fuzzy Environment", Journal of Information and Optimization Sciences, Taylor and Francis Group and Taru Publication, 2022 (Under Review after revision), An ESCI and C Type ABDC Listed Journal.

The above work is an extension of the following paper:

- M. Nazim, C. W. Mohammad and M. Sadiq, "Generating Datasets for Software Requirements Prioritization Research," 2020 IEEE International Conference on Computing, Power and Communication Technologies (GUCON), 2020, pp. 344-349, doi: 10.1109/GUCON48875.2020.9231062.

Dataset: Evaluation of one hundred ninety two FRs by five decision makers based on three NFRs
